HOUSTON--(BUSINESS WIRE)--Apr. 28, 2021-- Waste Management, Inc. (NYSE: WM) ("Waste Management") announced today that it, together with its wholly owned subsidiary, Waste Management Holdings, Inc. ("WMH" and, together with Waste Management, the "Offerors"), has commenced offers to purchase for cash (collectively, the "Offer") up to \$950 million aggregate principal amount of the senior notes listed in the table below (collectively, the "Notes").

### Indicative Timetable for the Offer:

Commencement of the Offer April 28, 2021

Early Tender Time	5:00 p.m., New York City time, on May 11, 2021, unless extended by the Offerors in their sole discretion.
Withdrawal Deadline	5:00 p.m., New York City time, on May 11, 2021, unless extended by the Offerors in their sole discretion, except as described in the Offer to Purchase or as required by applicable law.
Price Determination Date	10:00 a.m., New York City time, on May 12, 2021, unless extended by the Offerors in their sole discretion.
Early Acceptance Date	If elected, a date following the Early Tender Time and prior to the Expiration Time. Expected to be the first business day following the Early Tender Time (but may change without notice).
Early Settlement Date	If elected, promptly after the Early Tender Time. Expected to be May 13, 2021, the second business day following the Early Tender Time, but subject to change.
Expiration Time	12:00 midnight, New York City time, at the end of May 25, 2021, unless extended by the Offerors in their sole discretion.
Final Settlement Date	Promptly after the Expiration Time. Expected to be May 27, 2021, the second business day following the Expiration Time, but subject to change.

The Offer will expire at 12:00 midnight, New York City time, at the end of May 25, 2021, unless extended (such time and date, as the same may be extended in the Offerors' sole discretion, the "Expiration Time") or earlier terminated by the Offerors. Holders of any Notes of any series who validly tender and do not validly withdraw their Notes at or prior to 5:00 p.m., New York City time, on May 11, 2021, unless extended (such time and date, as the same may be extended in the Offerors' sole discretion, the "Early Tender Time"), will be eligible to receive the Total Consideration (as defined in the Offer to Purchase). The Total Consideration for each U.S. \$1,000 principal amount of Notes of each series validly tendered and not validly withdrawn and accepted for purchase by the Offerors will be determined in the manner described in the Offer to Purchase, so as to result in a price as of the applicable Settlement Date (as defined below) based on a yield to the applicable Par Call Date or maturity date (in accordance with market practice) for the Notes of such series equal to the sum of the fixed spread listed in the table above for such series plus the yield based on the bid-side price of the applicable U.S. Treasury Reference Security listed in the table above for such series (the "Reference Treasury"), as quoted on the applicable page on the Bloomberg Bond Trader FIT1 or FIT4 series of pages, or any recognized quotation source selected by the dealer managers in their sole discretion if such quotation report is not available or manifestly erroneous, at 10:00 a.m., New York City time, on May 12, 2021, unless extended by the Offerors in their sole discretion. The Total Consideration, as calculated above, is inclusive of an early tender premium of \$30 per U.S. \$1,000 principal amount of Notes validly tendered and not validly withdrawn and accepted for purchase by the Offerors (the "Early Tender Premium"). Holders who validly tender their Notes after the Early Tender Time, but on or prior to the Expiration Time, will only be eligible to receive the Tender Consideration, which equals the Total Consideration minus the Early Tender Premium. Validly tendered Notes may be validly withdrawn in accordance with the terms of the Offer, at any time on or prior to 5:00 p.m., New York City time, on May 11, 2021, unless extended, but not thereafter, except as described in the Offer to Purchase or as required by applicable law.

In addition to the Total Consideration or the Tender Consideration, as applicable, holders whose Notes are validly tendered and accepted for purchase pursuant to the Offer will be paid any accrued and unpaid interest on the Notes from, and including, the last interest payment date to, but not including, the Early Settlement Date or the Final Settlement Date (each, a "Settlement Date"), as applicable. For the avoidance of doubt, the Offerors will not pay any accrued and unpaid interest on any Notes accepted for purchase in the Offer following the applicable Settlement Date.

If the purchase of all Notes validly tendered in the Offer would cause the Offerors to purchase an aggregate principal amount of Notes in excess of the Maximum Principal Amount, subject to the terms and conditions of the Offer, including the Financing Condition, the Offerors will prorate the Notes accepted in the Offer as described in the Offer to Purchase (such procedures, the "Acceptance Priority Procedures"):

- If the aggregate principal amount of all Notes validly tendered and not validly withdrawn in the Offer on or prior to the Early Tender Time exceeds the Maximum Principal Amount, then the Offer will be oversubscribed on the Early Tender Time, and (1) the Offerors will not accept for purchase any Notes tendered after the Early Tender Time, and (2) the Offerors will (assuming satisfaction or, where applicable, the waiver of the conditions to the Offer) accept for purchase on the Early Acceptance Date (or, if there is no Early Acceptance Date, the Expiration Time) the maximum aggregate principal amount of Notes validly tendered and not validly withdrawn on or prior to the Early Tender Time as the Offerors can without exceeding the Maximum Principal Amount, on a pro rata basis as described below, in the order of the related Acceptance Priority Levels set forth in the table above (proceeding in ascending order from the lowest numerical value). If the aggregate principal amount of all validly tendered Notes of a series at one Acceptance Priority Level, when added to the aggregate principal amount of all Notes accepted for purchase at a higher Acceptance Priority Level (indicated by lower numerical value), does not exceed the Maximum Principal Amount, then the Offerors will accept for purchase all such tendered Notes of such series. If acceptance of all validly tendered Notes of a series at one Acceptance Priority Level, when added to the aggregate principal amount of all Notes accepted for purchase at a higher Acceptance Priority Level, exceeds the Maximum Principal Amount, then the Offerors will accept for purchase on a pro rata basis such tendered Notes such that the Offerors do not exceed the Maximum Principal Amount. Tendered Notes with a lower Acceptance Priority Level (indicated by a higher numerical value) than the Acceptance Priority Level that results in the purchase of the Maximum Principal Amount will not be accepted for purchase.
- If the Offer is not fully subscribed as of the Early Tender Time, and the aggregate principal amount of all Notes validly tendered in the Offer on or prior to the Expiration Time exceeds the Maximum Principal Amount, then the Offerors will accept for purchase on a pro rata basis (as described in the paragraph above) the maximum aggregate principal amount of such Notes of such series tendered after the Early Tender Time and on or prior to the Expiration Time as we can without exceeding the Maximum Principal Amount. Tendered Notes with a lower Acceptance Priority Level (indicated by a higher numerical value) than the Acceptance Priority Level that results in the purchase of the Maximum Principal Amount will not be accepted for purchase.

- If the Offer is not fully subscribed as of the Early Tender Time, Notes tendered on or before the Early Tender Time will be accepted for purchase in priority to Notes tendered after the Early Tender Time, even if such Notes tendered after the Early Tender Time have a higher Acceptance Priority Level.

Notwithstanding any other provision of the Offer, the obligation of the Offerors to accept for purchase, and to pay for, any Notes validly tendered is further subject to, and conditioned upon, the successful completion (in the Offerors' reasonable opinion) of the issuance of new senior notes designed to raise sufficient funds to purchase all Notes validly tendered, subject to the Maximum Principal Amount, and accepted for purchase by the Offerors and to pay all fees and expenses in connection with the Offer (the "Financing Condition"), together with cash on hand, if necessary, unless the Offerors (in their sole discretion) elect to waive the Financing Condition. The terms of such financing will be determined by market conditions and other factors at the time it occurs. No assurances can be given that the Offerors will in fact complete such financing. Consummation of the Offer is expressly contingent upon, among other things, the Offerors obtaining such financing on terms satisfactory to the Offerors.
