- Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Item 2.02. Results of Operations and Financial Condition.

Waste Management, Inc. (the "Company") issued a press release this morning, April 29, 2008, announcing its earnings for the quarter ended March 31, 2008. A copy of the press release is attached hereto as exhibit 99.1.

Additionally, as previously announced, the Company is holding a conference call, open to the public, to discuss these results, from 9:00 a.m. to 10:00 a.m. Central time this morning. The call will be webcast live, and may be heard by accessing the Company's website at www.wm.com. The call may also be listened to by calling (877) 710-6139 and entering the access code 39562966. A replay of the conference call will be available through 5:00 p.m. Central time on May 13, 2008. The replay of the call may be heard over the Internet, by accessing the Company's website at www.wm.com, or by telephone by dialing 800-642-1687 and entering conference code 39562966.

On the conference call, management of the Company is expected to discuss results of operations using certain non-GAAP financial measures that are also included in the Company's press release. The Company has provided information regarding its use of these non-GAAP measures and reconciliations of them to their most comparable GAAP measures in the press release that is attached to this Form 8-K as exhibit 99.1 and the schedules thereto.

Item 9.01. Financial Statements and Exhibits.

Waste Management Announces First Quarter 2008 Earnings

Company Posts Higher Earnings and Cash from Operations and Expresses Confidence in Achieving Full Year 2008 Earnings Guidance

HOUSTON — **April 29, 2008** — Waste Management, Inc. (NYSE: WMI) today announced financial results for its first quarter ended March 31, 2008. Net income for the quarter was \$241 million, or \$0.48 per diluted share, compared with \$238 million, or \$0.45 per diluted share in the prior year period.

Revenue for the first quarter of 2008 was \$3.27 billion as compared with \$3.19 billion in the year ago period, an increase of 2.4%. Income from operations as a percent of revenue improved by 50 basis points from the prior year period to 15.6% in the first quarter of 2008.

The Company noted several items that impacted the results in the 2007 and 2008 first quarters. Results in the first quarter of 2008 included a net \$0.01 per diluted share benefit due to a \$6 million benefit in net income from income tax audit settlements. Results in the first quarter of 2007 included a net \$0.02 per diluted share benefit consisting of a \$16 million benefit in net income from income tax audit settlements and a \$6 million reduction in net income due to restructuring charges.

Excluding those items, earnings would have been \$0.47 per diluted share in the first quarter of 2008 compared with \$0.43 per diluted share in the first quarter of 2007. This is a 9.3% increase in adjusted earnings per diluted share.(a)

"We started the year on a solid note as we again accomplished our primary financial goals of earnings growth, margin expansion and strong free cash flow," said David P. Steiner, Chief Executive Officer of Waste Management. "The 9.3% growth in adjusted earnings per share is an impressive accomplishment in the current business environment. It is even more impressive when you consider that we had a \$0.02 per diluted share benefit in Section 45K tax credits in the first quarter of 2007. The Section 45K program expired at the end of 2007. Excluding that benefit, year-over-year earnings would have grown 14.6% in the first quarter of 2008. (a)

"We grew revenue by 2.4% during the first quarter of 2008, due mainly to our disciplined approach to pricing, which led to internal revenue growth from yield on base business of 3.2%. We also benefited from higher recycling commodity prices, which contributed an additional 2.3% to revenue growth. Partially offsetting these increases were declines in internal revenue growth from volumes of 3.9%, mostly in the collection lines of business, as well as the carry-

over impact of divestitures of certain under-performing operations, which occurred principally during the 2007 fiscal year.

"We overcame several challenges during the first quarter of 2008, including the impact of sharply rising diesel fuel prices, a slow economy and harsh winter weather in the Midwest. Higher diesel fuel prices caused an approximate \$0.01 per share reduction in earnings during the quarter because the increase in our fuel surcharge revenue lagged the sharp rise in diesel fuel prices; and this also caused an approximate 50 basis point decline in income from operations as a percent of revenue. Excluding this negative 50 basis point impact, our income from operations as a percent of revenue increased by 100 basis points in the first quarter of this year compared with the prior year period, in line with our expectations. (a) We estimate that the winter weather conditions caused a \$0.01 per share decline in net income during the first quarter of this year."

Steiner continued, "We overcame a number of challenges by continuing our focus on pricing and operational excellence and executing our strategy of reviewing low margin accounts and increasing prices or culling that business. And we again produced strong free cash flow that we returned to shareholders in the form of our dividend and share repurchases. We generated \$561 million in net cash from operating activities and \$362 million of free cash flow during the quarter." (a)

Key Highlights for the First Quarter of 2008

- Income from operations was \$511 million, or 15.6% of revenue, an increase of 50 basis points compared with the prior year first quarter. Excluding the impacts of higher diesel fuel prices on fuel surcharge revenue and operating expenses, income from operations as a percent of revenue was 16.1% in the first quarter of 2008, an increase of 100 basis points compared with the prior year first quarter. (a)
- Internal revenue growth from yield on base business was 3.2%. Including the positive impact of higher recycling commodity prices and higher fuel surcharge revenue, internal revenue growth from yield was 6.8%.
- Internal revenue growth from volume was a negative 3.9%.
- Divestitures caused a 2.0% decline in revenue in the quarter, while acquisitions contributed 0.8% to higher revenue. Foreign currency translation contributed an additional 0.8% to revenue growth.
- Operating expenses were 64.1% of revenue, up from 63.8% of revenue in the same period in 2007. Excluding the impacts of higher diesel fuel prices and higher recycling commodity prices on both operating expenses and revenue, operating expenses were 63.0% of revenue in the first quarter of 2008, or an 80 basis point improvement compared with the prior year period.(a)
- Depreciation and amortization expenses were 9.1% of revenue, down from 9.7% of revenue in the first quarter of 2007, due mainly to lower volumes.
- Net cash provided by operating activities was \$561 million compared with \$538 million in the prior year quarter. Capital expenditures were \$213 million, compared with \$272 million in the prior year quarter.
- Free cash flow was \$362 million, compared with \$335 million in the prior year quarter.(a)
- We returned \$414 million to shareholders in the form of \$281 million in common stock repurchases, or approximately 9 million shares, and \$133 million in dividend payments.

Steiner concluded, "Despite the slow economy, we are off to a good start for the year. We continued to execute our disciplined pricing and cost control strategies and we overcame the

challenges during the quarter. Our success during the first quarter gives us confidence that we can achieve our previously projected full-year earnings of \$2.19 to \$2.23 per diluted share and free cash flow of \$1.4 billion."(a)

- (a) This earnings release contains a discussion of non-GAAP measures, as defined in Regulation G of the Securities Exchange Act of 1934, as amended. The Company reports its financial results in compliance with GAAP, but believes that also discussing non-GAAP measures provides investors with (i) additional, meaningful comparisons of current results to prior periods' results by excluding items that the Company does not believe reflect its fundamental business performance and (ii) financial measures the Company uses in the management of its business. GAAP measures that have been adjusted to exclude the impact of certain unusual, non-recurring or otherwise non-operational items include:
 - Earnings per diluted share;
 - Income from operations as a percent of revenue;
 - Operating expenses as a percent of revenue; and
 - Projected earnings per diluted share.

The Company also discusses free cash flow and projected free cash flow, which are non-GAAP measures, because it believes that investors are interested in the cash produced by the Company from non-financing activities that is available for uses such as the Company's acquisitions, its share repurchase program, its scheduled debt reduction and the payment of dividends. The Company defines free cash flow as:

- Net cash provided by operating activities
- Less, capital expenditures
- Plus, proceeds from divestitures of businesses, net of cash divested, and other sales of assets.

The Company's definition of free cash flow may not be comparable to similarly titled measures presented by other companies, and therefore not subject to comparison.

The quantitative reconciliations of the non-GAAP measures, other than the full year projected earnings per diluted share, to the most comparable GAAP measures are included in the accompanying schedules. Investors are urged to take into account GAAP measures as well as non-GAAP measures in evaluating the Company.

The full year adjusted earnings of \$2.19 to \$2.23 per diluted share projected by the Company excludes the first quarter impact of a \$6 million income tax audit settlement. GAAP net earnings per diluted share for the remaining three quarters of 2008 may include other items that are not currently determinable, but may be significant, such as asset impairment and unusual items, charges, gains or losses from divestitures, or additional resolution of income tax items. The full year 2008 adjusted projected earnings reaffirmed today excludes the impact of any such items that may occur. GAAP net earnings per diluted share projected for the full year would require inclusion of the projected impact of these items. Due to the uncertainty of the likelihood, amount and timing of any such items, we do not believe we have the information available to provide projected full year GAAP net earnings per diluted share and the quantitative reconciliation to our current adjusted earning per diluted share projection.

The Company has scheduled an investor and analyst conference call for later this morning to discuss the results of today's earnings announcement. The information in this press release should be read in conjunction with the information on the conference call. The call will begin at 10:00 a.m. Eastern time and is open to the public. To listen to the conference call, which will be broadcast live over the Internet, go to the Waste Management Website at http://www.wm.com, and select "Earnings Webcast." You may also listen to the analyst conference call by telephone by contacting the conference call operator 5 to 10 minutes prior to the scheduled start time and asking for the "Waste Management Conference Call — Call ID 39562966." US/Canada Dial-In Number: (877) 710-6139. Int'l/Local Dial-In Number: (706) 643-7398. For those unable to listen to the live call, a replay will be available 24 hours a day beginning at approximately 1:00 p.m. Eastern time on April 29th through 5:00 p.m. Eastern time on May 13th. To hear a replay

of the call over the Internet, access the Waste Management Website at http://www.wm.com. To hear a telephonic replay of the call, dial (800) 642-1687 or (706) 645-9291 and enter reservation code 39562966.

Waste Management, Inc., based in Houston, Texas, is the leading provider of comprehensive waste management services in North America. Through its subsidiaries, the Company provides collection, transfer, recycling and resource recovery, and disposal services. It is also a leading developer, operator and owner of waste-to-energy and landfill gas-to-energy facilities in the United States. The Company's customers include residential, commercial, industrial, and municipal customers throughout North America.

The Company, from time to time, provides estimates of financial and other data, comments on expectations relating to future periods and makes statements of opinion, view or belief about current and future events. Statements relating to future events and performance are "forward-looking statements." The forward-looking statements that the Company makes are the Company's expectations, opinion, view or belief at the point in time of issuance but may change at some future point in time. By issuing estimates or making statements based on current expectations, opinions, views or beliefs, the Company has no obligation, and is not undertaking any obligation, to update such estimates or statements or to provide any other information relating to such estimates or statements. Outlined below are some of the risks that the Company faces and that could affect our financial statements for 2008 and beyond and that could cause actual results to be materially different from those that may be set forth in forward-looking statements made by the Company. However, they are not the only risks that the Company faces. There may be additional risks that we do not presently know or that we currently believe are immaterial which could also impair our business. We caution you not to place undue reliance on any forward-looking statements, which speak only as of their dates. The following are some of the risks that we face:

- competition may negatively affect our profitability or cash flows, our price increases may have negative effects on volumes and price roll-backs and lower than average pricing to retain and attract customers may negatively affect our yield on base business;
- we may be unable to maintain or expand margins if we are unable to control costs or raise prices;
- we may not be able to successfully execute or continue our operational or other margin improvement plans and programs, including pricing
 increases; passing on increased costs to our customers; reducing costs due to our operational improvement programs; and divesting underperforming assets and purchasing accretive businesses, any of which could negatively affect our revenue and margins;
- weather conditions cause our quarter—to-quarter results to fluctuate, and harsh weather or natural disasters may cause us to temporarily shut down operations;
- inflation, higher interest rates and other general and local economic conditions may negatively affect the volumes of waste generated, our financing costs and other expenses;
- possible changes in our estimates of costs for site remediation requirements, final capping, closure and post-closure obligations, compliance and regulatory requirements may increase our expenses;
- regulations, including regulations to limit greenhouse gas emissions, may negatively impact our business by, among other things, restricting our operations, increasing costs of operations or requiring additional capital expenditures;
- if we are unable to obtain and maintain permits needed to open, operate, and/or expand our facilities, our results of operations will be negatively impacted;
- limitations or bans on disposal or transportation of out-of-state, cross-border, or certain categories of waste, as well as mandates on the disposal of waste, can increase our expenses and reduce our revenue;
- fuel price increases or fuel supply shortages may increase our expenses or restrict our ability to operate;
- increased costs to obtain financial assurance or the inadequacy of our insurance coverages could negatively impact our liquidity and increase our liabilities;
- possible charges as a result of shut-down operations, uncompleted development or expansion projects or other events may negatively affect earnings;

- *fluctuating commodity prices may have negative effects on our operating revenue and expenses*;
- trends toward recycling, waste reduction at the source and prohibiting the disposal of certain types of wastes could have negative effects on volumes of waste going to landfills and waste-to-energy facilities;
- efforts by labor unions to organize our employees may increase operating expenses and we may be unable to negotiate acceptable collective bargaining agreements with those who have been chosen to be represented by unions, which could lead to labor disruptions, including strikes and lock-outs, which could adversely affect our results of operations and cash flows;
- negative outcomes of litigation or threatened litigation or governmental proceedings may increase our costs, limit our ability to conduct or expand our operations, or limit our ability to execute our business plans and strategies;
- problems with the operation of our current information technology or the development and deployment of new information systems could decrease our efficiencies, increase our costs, or lead to an impairment charge;
- the adoption of new accounting standards or interpretations may cause fluctuations in reported quarterly results of operations or adversely impact our reported results of operations; and
- we may reduce or eliminate our dividend or share repurchase program or we may need to raise additional capital if cash flows are less than we
 expect or capital expenditures or acquisition spending are more than we expect, and we may not be able to obtain any needed capital on acceptable
 terms.

Additional information regarding these and/or other factors that could materially affect results and the accuracy of the forward-looking statements contained herein may be found in Part I, Item 1 of the Company's Annual Report on Form 10-K for the year ended December 31, 2007.

| Amortization and SFAS No. 143 Expenses for Landfills Included in Operating Groups (b) | | | | |
| Non — SFAS No. 143 amortization expense | \$ 86.1 | \$ 94.1 | \$ 90.7 | |
| Amortization expense related to SFAS No. 143 obligations | 7.7 | 1.1 | 13.8 | |
| Total amortization expense (c)(d) | 93.8 | 95.2 | 104.5 | |
| Accretion and other related expense | 15.7 | 16.6 | 14.7 | |
| Landfill amortization, accretion and other related expense | \$ 109.5 | \$ 111.8 | \$ 119.2 | |

⁽a) The quarters ended March 31, 2008, December 31, 2007, and March 31, 2007 include short-term investments available for use of \$0 million, \$0 million, and \$46 million, respectively.

⁽b) Prior period amounts have been revised to exclude amounts from closed landfills not included in our Operating groups.

⁽c) The quarter ended March 31, 2008, as compared with the quarter ended December 31, 2007 reflects a \$1.4 million reduction in amortization expense, of which \$10.2 million was due to the seasonal reduction in landfill volumes. Additionally, there was a sequential increase of \$9.7 million due to rate changes principally as a result of the SFAS No. 143 landfill capping construction and closure/post closure obligations identified in our annual landfill review process during the quarter ended December 31, 2007.

⁽d) The quarter ended March 31, 2008, as compared with the quarter ended March 31, 2007 reflects a decline in amortization expense due primarily to a reduction in landfill volumes, as well as a \$4.6 million decline resulting principally from changes in our estimates of capping costs. The decline in landfill volumes can be attributed to the Company's collection pricing initiative, a decline in residential construction activities and other economic impacts.
