

## Waste Management Receives Green Technology World Leadership Award

Nov 16, 2011

Data Center Facility Honored for Green Initiatives

[Waste Management Inc.](#) (NYSE: WM) today announced that their Data Center Facility has received a Green Technology World Leadership Award from [TMC](#). The World Leadership Award honors forward-thinking businesses that have made advancements in innovative, environmentally-sustainable technology. The award is typically reserved for products and services, but Waste Management is being recognized for the "green" initiatives taking place throughout their data centers and IT facilities.

"Waste Management made a commitment to minimizing our data center's footprint with conservation and recycling efforts. Being honored for this in a space where data centers are seldom recognized is an outstanding achievement," said Brian Kirkpatrick, director of Waste Management's data centers.

Gautam Roy, vice president of Infrastructure added, "At Waste Management, we make it our business to 'think green' every day and to manage waste to its full potential. This award gives us a platform to evangelize how beneficial this approach can be in the data center realm." Roy continued, "We look forward to further advancing sustainability across our IT facilities and hope to inspire others to do the same."

The "green" initiatives Waste Management is being recognized for include:

- Energy efficient air-conditioning and lighting system installations
- Broad based recycling and eCycling programs
- Power saving motion sensors, timers, and automated shut-off controls
- Data center temperature and humidity level adjustments
- Low consumption servers, network, and storage devices
- Application and infrastructure rationalization, consolidation, and virtualization
- A continued commitment to reduce consumption through energy audits

"I am pleased to honor CIO Puneet Bhasin and Waste Management for initiating innovation and helping to drive the next evolution of technology," Erik Linask, group editorial director, TMC. "On behalf of Crossfire Media, I extend congratulations to Waste Management for their advancement of M2M technology products. The entire industry looks forward to more innovative solutions from them in the future.

"I am pleased to grant a World Leadership Award to Waste Management for their significant progress in the advancement of green technologies," said [Rich Tehrani](#), CEO, TMC. "Congratulations to the entire team at Waste Management for their accomplishments in the advancement of the green technology industry."
