GENERAL INFORMATION

About this Proxy Statement

We sent you these proxy materials because Waste Management's Board of Directors is soliciting your proxy to vote your shares at the Annual Meeting. This Proxy Statement summarizes information that we are required to provide to you under the rules of the Securities and Exchange Commission and that is designed to assist you in voting your shares.

Who May Vote

Stockholders of Waste Management, as recorded in our stock register at the close of business on March 10, 2006, may vote at the meeting. On March 28, 2006 we began mailing these proxy materials to those stockholders. Each share of Waste Management common stock is entitled to one vote. As of March 10, 2006, there were 546,872,648 shares of common stock outstanding and entitled to vote.

How to Vote

You may vote in person at the meeting or by proxy. We recommend you vote by proxy. You may revoke your proxy before we vote it at the meeting by submitting a new proxy with a later date; by voting in person at the meeting; or by notifying our Corporate Secretary in writing at: Waste Management, Inc., 1001 Fannin Street, Suite 4000, Houston, Texas 77002. Your most current proxy is the one that is counted unless you vote in person at the meeting.

How Proxies Work

Giving us your proxy means you authorize us to vote your shares at the meeting in the manner you direct. You can vote by proxy:

- by telephone or over the Internet by following the instructions on the proxy card or the voting instruction form if your shares are held through a broker; or
- by mail by signing, dating and mailing the enclosed proxy card.

You may receive more than one proxy card depending on how you hold your shares. Shares registered in your name and shares held in our ESPP are covered by separate proxy cards. If you hold shares through a broker, your ability to vote by phone or over the Internet depends on your broker's voting process. You should complete and return each proxy or other voting instruction request provided to you.

If you sign your proxy but do not give voting instructions, we will vote your shares as follows:

- in favor of our director candidates;
- in favor of the ratification of the independent registered public accounting firm;
- in favor of the amendment to the ESPP; and
- against the stockholder proposal relating to the election of directors by majority vote.

For any other matters that may properly come before the meeting, your shares will be voted at the discretion of the proxy holders. You may vote for all, some or none of our director candidates. You may also vote for or against the other proposals, or you may abstain from voting.

Quorum

In order to carry on the business of the meeting, we must have a quorum. This means that at least a majority of the outstanding shares eligible to vote must be present at the meeting, either by proxy or in person.

[Table of Contents](#)

Abstentions and broker non-votes are counted as present at the meeting for determining whether we have a quorum. A broker non-vote occurs when a broker signs and returns a proxy but does not vote on a particular proposal because the broker does not have discretionary voting power for that particular item and has not received voting instructions from the beneficial owner.

Votes Needed

Directors are elected by a plurality of shares present at the meeting, meaning the eight nominees that receive the highest number of votes cast in favor of their election will be elected.

The ratification of the independent registered public accounting firm, the approval of the amendment to the ESPP and the stockholder proposal for the election of directors by majority vote require the favorable vote of a majority of the shares present, either by proxy or in person, and entitled to vote. Abstentions will have the same effect as a vote against these matters because they are considered present and entitled to vote, but are not voted.

Although broker non-votes are considered present for quorum purposes, they are not considered entitled to vote. Accordingly, broker non-votes will have no effect on the vote for any of the matters introduced at the meeting. Pursuant to New York Stock Exchange rules, the proposal to amend the ESPP and the stockholder proposal are “non-discretionary” matters, meaning that unless you give your broker instructions on how to vote your shares on these proposals, your shares will not be voted and will be considered broker non-votes.

Attending in Person

Only stockholders, their proxy holders and our invited guests may attend the meeting. If you plan to attend, please bring identification and, if you hold shares in street name, you should bring your bank or broker statement showing your beneficial ownership of Waste Management stock in order to be admitted to the meeting.

The only items that will be discussed at this year’s Annual Meeting of Stockholders will be the four agenda items set out in the Notice. There will be no presentations made at this year’s meeting.

BOARD OF DIRECTORS

Our Board of Directors currently has seven members. Our Board is declassified, which means that each member is elected annually. Mr. Pope is the Non-Executive Chairman of the Board and presides over all meetings of the Board, including executive sessions.

Stockholders wishing to communicate with the Board or the non-employee directors should address their communications to Mr. John C. Pope, Non-Executive Chairman of the Board, c/o Waste Management, Inc., P.O. Box 53569, Houston, Texas 77052-3569.

DIRECTOR NOMINEES (Item 1 on the Proxy Card)

The first proposal on the agenda will be to elect eight directors to serve until the next Annual Meeting of Stockholders and until their respective successors have been duly elected and qualified. The Board has nominated the eight director candidates listed below, and recommends that you vote for their election. Since no nominees will be recognized other than those that are nominated in accordance with our Bylaws, the following director candidates are the only nominees that will be presented for the 2006 Annual Meeting. Except for Mr. Morgan, who is standing for election for the first time at this Annual Meeting of Stockholders, all of the director candidates presented are current directors. Mr. Morgan was identified as a potential director candidate by an outside consultant who assisted the Board with its search for director candidates.

The nominees receiving the greatest number of votes for each of the eight positions will be elected. If any nominee is unable or unwilling to serve as a director, which we do not anticipate, the Board, by resolution, may reduce the number of directors or may choose a substitute.

[Table of Contents](#)

The Board of Directors has determined that the seven non-employee director candidates are independent in accordance with the New York Stock Exchange requirements. In making its determination of independence, the Board of Directors adopted categorical standards of director independence. These standards, which meet or exceed the New York Stock Exchange requirements, specify certain relationships that are prohibited in order for the non-employee director to be presumed independent. Notwithstanding our categorical standards, our Board reviews all relationships and related transactions, if any, each director has with our Company in determining independence. The categorical standards our Board uses in determining independence are included in our Corporate Governance Guidelines, which are attached as Appendix A to this Proxy Statement. The Board has determined that each non-employee director candidate meets these standards.

The following is a brief biography of each director nominee. You will find information on their holdings of Waste Management stock in the “Director Nominee and Officer Stock Ownership” section on page 9.

Director Compensation

Employee Directors

Directors who are also employees of the Company do not receive any additional compensation for serving on our Board. Mr. Steiner is the only director who is also an employee of the Company, and he does not receive any additional compensation for Board service.

Non-Employee Directors

In 2005, our non-employee directors received the following compensation:

Annual Stock Unit Retainer ⁽¹⁾

- \$80,000 for director service paid in two installments, generally on January 15th and July 15th of each year

Annual Cash Retainers ⁽²⁾

- \$50,000 for director service

Table of Contents

- \$25,000 for the Audit Committee Chair
- \$20,000 for the Compensation Committee Chair
- \$15,000 for the Nominating & Governance Committee Chair
- \$5,000 for each Audit Committee member (other than the Chair)

Meeting Fees ⁽²⁾

- \$2,000 for each Board meeting attended
- \$1,500 for each Committee meeting attended

In addition, for 2005, Mr. Pope received an additional annual retainer of \$200,000 for his role as Non-Executive Chairman of the Board, 50% of which was paid in stock units and 50% of which was paid in cash.

- (1) Under our 2003 Directors' Deferred Compensation Plan, the stock unit retainer is credited to the directors' accounts by dividing the dollar amount of the stock unit retainer by the fair market value of our common stock on the date of payment. For example, on July 15, 2005, we divided \$40,000 by \$27.70, the fair market value of our common stock on that date, and credited each director's account with approximately 1,400 stock units. These units will be paid out to the directors in shares of common stock on a date that they choose, which may not be earlier than one year after the termination of their Board service. The directors receive dividend rights on the stock units; however, there are no voting rights attached to the stock units.
- (2) The 2003 Directors' Deferred Compensation Plan allows the non-employee directors to defer 100% or 50% of their cash compensation and receive payment in shares of our common stock upon termination of Board service, or upon such later date that the director may choose.

The table below shows the compensation of our non-employee directors in 2005.

He also accrued 3,674 deferred stock units as compensation for his role as Non-Executive Chairman of the Board (of which 288 stock units were in payment of 2004 compensation).
- (3) Mr. Weidemeyer joined the Board on January 28, 2005.

The table below shows the value of all of the deferred compensation, including the dividend equivalents accrued on that compensation, of our non-employee directors as of December 31, 2005, based on the closing price of our common stock on December 30, 2005 of \$30.35. Deferred compensation includes stock units issued since 2003 under our 2003 Directors' Deferred Compensation Plan, described above, and phantom stock units. Phantom stock units were issued under our previous directors' deferred compensation plan from 1998 through 2002. Under that plan, non-employee directors were able to defer 100% or 50% of their cash compensation. The phantom stock units are equal in value to one share of our common stock and receive dividend equivalents, in the

form of additional phantom stock units, at the same time as actual shares of common stock receive dividends. The phantom stock units will be paid out in cash upon the director's termination of Board service.

Meetings and Board Committees

Last year the Board held nine meetings and each committee of the Board met independently as set forth below. Each incumbent director attended 100% of the meetings of the Board and the committees on which he or she served. In addition, all directors attended the 2005 Annual Meeting of Stockholders.

The Board appoints committees to help carry out its duties. In particular, Board committees work on key issues in greater detail than would be possible at full Board meetings. Each committee reviews the results of its meetings with the full Board, and all members of the Board are invited to attend all committee meetings. The Board has three standing committees: the Audit Committee, the Compensation Committee and the Nominating and Governance Committee. Additionally, the Board has the power to appoint additional committees, as it deems necessary.

The Audit Committee

Mr. Rothmeier has been the Chairman of our Audit Committee since May 2004. The other members of our Audit Committee are Messrs. Clark, Pope and Reum. Each of the members of our Audit Committee is independent in accordance with the rules and regulations of the New York Stock Exchange. Our Audit Committee held ten meetings in 2005.

SEC rules require that each publicly traded company have at least one financial expert on its Audit Committee. Our Board of Directors has named Messrs. Rothmeier and Pope as the Audit Committee's financial experts based on a thorough review of their education and financial and public company experience.

Mr. Rothmeier served in various leadership positions in the airline industry for approximately 16 years, including the positions of Chairman, CEO and CFO of Northwest Airlines. He founded Greater Northern Capital, a private investment management, consulting and merchant banking firm, in 1993, where he continues to serve as Chairman and CEO. Mr. Rothmeier has a master's degree in finance from the University of Chicago Graduate School of Business and a bachelor's degree in business administration from the University of Notre Dame. Mr. Rothmeier serves on two public company audit committees in addition to Waste Management's.

Mr. Pope served in various financial positions, primarily in the airline industry, for approximately 17 years, including over nine years combined in CFO positions at American Airlines and United Airlines. He has a master's degree in finance from the Harvard Graduate School of Business Administration and a bachelor's degree in engineering and applied science from Yale University. Mr. Pope serves on four public company audit committees in addition to Waste Management's. Our Board reviewed the time Mr. Pope spends on each company's audit committee and, taking into consideration that Mr. Pope is not employed in a full-time position, determined that Mr. Pope's service on the other companies' audit committees does not impair his ability to serve on the Company's Audit Committee.

Table of Contents

The Audit Committee's duties are set forth in a written charter that was adopted by the Board of Directors. A copy of the charter is attached to this Proxy Statement as Appendix B, and can also be found on our website. The Audit Committee generally is responsible for overseeing all matters relating to our financial statements and reporting, internal audit function and independent auditors. As part of its function, the Audit Committee reports the results of all of its reviews to the full Board. In fulfilling its duties, the Audit Committee, among other things, will:

Independent Auditor

- Engage an independent auditor, determine the auditor's compensation and replace the auditor if necessary;
- Review the independence of the independent auditor and establish hiring policies for current or former employees of the independent auditor;
- Evaluate the lead partner of our independent audit team and review a report, at least annually, describing the independent auditor's internal control procedures; and
- Pre-approve all services, including non-audit engagements, provided by the independent auditor.

Internal Audit

- Review the plans, staffing, reports and activities of the internal auditors; and
- Review and establish procedures for receiving, retaining and handling complaints, including anonymous complaints by our employees, regarding accounting, internal controls and auditing matters.

Financial Statements

- Review financial statements and Forms 10-K and 10-Q with management and the independent auditor;
- Review all earnings press releases and discuss the type of earnings guidance that we provide to analysts and rating agencies with management;
- Discuss with the independent auditor any material changes to our accounting principles and matters required to be communicated under Statement on Auditing Standards No. 61 relating to the conduct of the audit;
- Review with management, the independent auditor and our internal auditors our financial reporting, accounting and auditing practices;
- Determine whether we have adequate and effective accounting and financial controls; and
- Review CEO and CFO certifications related to our reports and filings.

The Compensation Committee

Mr. Reum has served as the Chairman of our Compensation Committee since May 2004. The other members of the Committee are Ms. Cafferty and Messrs. Pope, Rothmeier and Weidemeyer. Each of the members of our Compensation Committee is independent in accordance with the rules and regulations of the New York Stock Exchange. The Compensation Committee met six times in 2005.

Our Compensation Committee is responsible for overseeing all of our executive and senior management compensation, as well as developing the Company's compensation philosophy generally. The Compensation Committee's written charter, which was approved by the Board of Directors, can be found on our website. In fulfilling its duties, the Compensation Committee, among other things, will:

- Review and establish policies governing the compensation and benefits of all of our executives;

Table of Contents

- Approve the compensation of our senior management and set the bonus plan goals for those individuals;
- Review an annual evaluation of our CEO prepared by the Nominating and Governance Committee to set the CEO's compensation;
- Oversee the administration of all of our equity-based incentive plans;
- Recommend new Company compensation and benefit plans or changes to our existing plans to the full Board; and
- Perform an annual review of its performance relative to its charter and report the results of its evaluation to the full Board.

The Nominating and Governance Committee

Mr. Clark has served as the Chairman of our Nominating and Governance Committee since May 2004. The other members of the Committee include Ms. Cafferty and Messrs. Pope and Weidemeyer. Each of the members of our Nominating and Governance Committee is independent in accordance with the rules and regulations of the New York Stock Exchange. In 2005, the Nominating and Governance Committee met six times.

The Nominating and Governance Committee has a written charter that has been approved by the Board of Directors and can be reviewed by accessing our website. It is the duty of the Nominating and Governance Committee to oversee matters regarding corporate governance. In fulfilling its duties, the Nominating and Governance Committee, among other things, will:

- Review and recommend the composition of our Board, including the nature and duties of each of our committees;
- Evaluate and recommend to the Board the compensation paid to our non-employee directors;
- Evaluate the charters of each of the committees and recommend who the committee chairs will be;
- Review individual director's performance, when issues arise, in consultation with the Chairman of the Board;
- Recommend retirement policies for the Board, the terms for directors and the proper ratio of employee directors to outside directors;
- Coordinate the evaluation of the CEO by the non-employee directors and provide results to the Compensation Committee;
- Perform an annual self-evaluation and report the results to the Board;
- Review stockholder proposals received for inclusion in the Company's proxy statement and recommend action to be taken with regard to the proposals to the Board; and
- Identify and recommend to the Board candidates to fill director vacancies.

Potential director candidates are identified through various methods, and the Committee welcomes suggestions from directors, members of management, and stockholders. Also, the Nominating and Governance Committee sometimes uses outside consultants to assist it with identifying potential director candidates. In 2005, the Company paid fees to an outside consultant who assisted the Board in identifying potential Board candidates.

For all potential candidates, the Nominating and Governance Committee may consider all factors it deems relevant, such as a candidate's personal and professional integrity and sound judgment, business and professional skills and experience, independence, possible conflicts of interest, diversity, and the potential for effectiveness, in conjunction with the other directors, to serve the long-term interests of the stockholders. The Committee uses a matrix of functional and industry experiences for its current directors to develop criteria for new candidates when a vacancy becomes available. Before being nominated by the Nominating and Governance Committee, director

candidates are interviewed by a minimum of two members of the Nominating and Governance Committee, including the Non-Executive Chairman of the Board, and the CEO. Additional interviews may include other members of the Board, representatives from senior levels of management and a consultant if one is being used.

The Committee intends to maintain the maximum size of the Board at nine directors in accordance with the objective stated in our Corporate Governance Guidelines. When a vacancy occurs or is anticipated, the Nominating and Governance Committee will consider all potential nominees on their merits without regard to the source of recommendation. The Nominating and Governance Committee believes that the nominating process will and should continue to involve significant subjective judgments. To suggest a nominee, you should submit your candidate's name, together with biographical information and his or her written consent to nomination to the Chairman of the Nominating and Governance Committee, Waste Management, Inc., 1001 Fannin Street, Suite 4000, Houston, Texas 77002, between October 29, 2006 and November 28, 2006.

Stockholders may obtain a copy of our Corporate Governance Guidelines, the Charters of each Committee and our Code of Conduct by contacting the Corporate Secretary, c/o Waste Management, Inc., 1001 Fannin Street, Suite 4000, Houston, Texas 77002 or by accessing our website at <http://www.wm.com>.

DIRECTOR NOMINEE AND OFFICER STOCK OWNERSHIP

In March 2004, the Board of Directors adopted stock ownership guidelines for our non-employee directors. Each director is required to hold common stock or common stock-based instruments, which can include the phantom stock units or stock units granted under our deferred compensation plans for directors, valued at five times his annual cash retainer. For non-employee directors other than Mr. Pope, five times the 2006 annual cash retainer of \$50,000 equates to approximately 8,300 shares, and five times Mr. Pope's 2006 annual cash retainer of \$150,000 equates to 25,000 shares, each based on a \$30 stock price. Directors have until March 2007, three years from the adoption of the guidelines, or three years from the date of election, whichever is later, to attain the required ownership level.

In October 2002, the Compensation Committee also adopted stock ownership guidelines for our executives, which are described in the Compensation Committee Report on page 23 of this Proxy Statement.

The Director Nominee and Officer Stock Ownership Table below shows how much common stock each director nominee and executive officer named in the Summary Compensation Table on page 14 owned as of March 10, 2006. None of these individuals own more than 1% of our outstanding shares. Collectively, the directors and officers as a group owned approximately 1.2% of our outstanding shares as of March 10, 2006.

The table does not include performance share units ("PSUs") that the Company granted to each of the named executive officers in January 2005 and January 2006. The PSUs are settled in shares of our common stock based on the Company's achievement of certain financial performance objectives during the established performance period. The actual number of shares of common stock the executives may receive at the end of the performance period will vary depending on the level of achievement of the Company's financial objectives, and can vary from zero to two times the number of PSUs granted. The PSUs are not included in the Director Nominee and Officer Stock Ownership Table because the number of shares, if any, that will ultimately be issued is not known. The PSUs awarded to the named executive officers in 2005 are indicated in the Long Term Incentive Plan Award table on page 16 of this Proxy Statement.

The Deferral Plan is a nonqualified benefit plan designed to keep participants whole when they are affected by IRS limits on our qualified 401(k) plan. In general, employees with an annual base salary of \$170,000 or greater are eligible to participate in the plan. Participants may elect to defer up to 25% of their base salary and up to 100% of their annual bonus. The Company provides matching contributions dollar for dollar on the first 3% of pay and fifty cents on the dollar for the next 3% of pay. Company matching contributions in the Deferral Plan begin when a participant has reached the IRS contribution limit in the 401(k) plan. The maximum amount of pay that is eligible for Company matching contributions under the 401(k) plan and the Deferral Plan is 6%. Amounts deferred under the Deferral Plan fluctuate based on selected investment funds that mirror those provided under the 401(k) plan. Phantom stock units are equal in value to one share of our common stock and receive dividend equivalents, in the form of additional phantom stock units, at the same time that actual shares of

common stock receive dividends. The value of the phantom stock units is paid out, in cash, at a future date elected by the director or executive.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Under the federal securities laws, executive officers, directors and stockholders who own more than 10% of our common stock are required to file reports of their ownership, as well as any changes in their ownership, with the SEC and the New York Stock Exchange. They are also required to provide us with copies of any forms they file.

We are not aware of any stockholders owning more than 10% of our common stock. After reviewing the copies of the forms and written representations from our executive officers and directors, we believe that during the last fiscal year, the executive officers and directors complied with all of their requirements to report their stock ownership and any changes in their ownership, with the exception of the following:

- In September 2005, Forms 4 evidencing the biweekly accrual of phantom stock units under the Company's Deferral Plan for Messrs. Aardsma, Felago and LaValley, each a Senior Vice President of the Company, were reported one day late due to the closure of the Company's offices in connection with Hurricane Rita.
- In September 2005, Cherie Rice, Vice President — Finance and Treasurer of the Company, amended her original Form 3, filed in January 2004, to report the ownership of 1,639 shares inadvertently omitted from her original Form 3.

used primarily for business travel, we do not include the fixed costs that do not change based on usage, such as pilots' salaries, the purchase costs of the Company-owned aircraft, and the cost of maintenance not related to trips.

(b) "Other" includes parking for Messrs. Steiner, O'Donnell and Trevathan.

(c) Due to administrative error, in last year's Proxy Statement, Mr. Steiner's personal use of the Company aircraft was incorrectly reported for 2004 as \$81,421 and costs associated with Mr. Steiner's annual physical in 2003 were incorrectly reported as \$0.

- (2) The restricted stock awards reported include annual grants to executives as well as grants in connection with promotions. Additionally, we have included both shares of restricted stock, which receive dividends and are able to be voted, but are not subject to sale until time restrictions have lapsed, and restricted stock units, which receive dividend equivalents, but will not be able to be voted or sold until the unit vests and shares of common stock are issued. The amounts shown in the table above are based on the fair market value of our common stock on the date the awards were granted. The actual gain, if any, an executive may realize will depend on the market price of the stock at the time of exercise. "In-the-money" means the market price of the stock is higher than the exercise price of the option on the date specified.
- (2) On December 16, 2005, the Compensation Committee approved the acceleration of the vesting, as of December 28, 2005, of all unvested stock options awarded under the Company's stock incentive plans.

- (1) The Threshold, Target and Maximum amounts indicated represent shares of common stock. The dollar value indicated is based on the closing price of our common stock on December 30, 2005 of \$30.35. The actual number of shares earned will be based upon the achievement of certain financial performance measures and the dollar value of the payout will be based upon the fair market value of our common stock at the time of payout.
- (2) The criteria to be applied in determining the amounts payable under the awards granted to Messrs. Steiner and O'Donnell for the 24-month performance period beginning January 1, 2005 and ending December 31, 2006, are a cumulative compound growth rate in Earnings Per Share ("EPS") and Return on Invested Capital ("ROIC"), weighted equally. EPS is defined to mean diluted EPS as reported by the Company (such valuation may exclude extraordinary, unusual or non-recurring items as determined by the Compensation Committee). ROIC is defined to mean (i) the Company's average "Net Operating Profit After Taxes" (earnings before interest and taxes multiplied by 61.2%) for the performance period divided by (ii) the Company's average "Invested Capital" (total debt plus shareholders' equity minus cash and goodwill) for the performance period. For the awards granted to all of the executive officers for the 36-month performance period beginning January 1, 2005 and ending December 31, 2007, the measurement for determining the level of achievement of the award is ROIC.
- (3) The Maximum number of shares Messrs. Steiner and O'Donnell can receive under the awards granted for the 24-month performance period beginning January 1, 2005 and ending December 31, 2006 is 150% of Target.

Total Compensation

The total compensation included in the table below includes all amounts contained in the Summary Compensation Table on page 14 plus the value of all equity-based awards granted in 2005, based on the fair market value of our common stock on the date the awards were granted. As described elsewhere, these awards are subject to certain vesting and performance requirements and are not necessarily indicative of the actual amounts that the executive may ultimately receive.

Employment Agreements

The Company has entered into employment agreements with certain of its officers, including the named executive officers. The agreements with the named executives contain provisions regarding consideration payable to the executives upon termination of employment, as described below. Each of the agreements also contains post-termination restrictive covenants, including a covenant not to compete and non-solicitation covenants, each of which lasts for two years after termination. Each of the executives' agreement provides for a minimum base salary and states that once increased, the salary may not be decreased. Additionally, each of the executives' agreement provides for eligibility in the Company's annual incentive plan. Each of the executives is entitled to certain perquisites under the Company's perquisite program for executives; however, in some cases as noted below, the executives' employment agreement provides for greater perquisites. The Company's executive perquisite program provides for the following:

Auto Allowance

- \$12,000 per year

Financial, Legal and Tax Planning

- Actual cost, up to \$15,000 per year
- One time benefit not to exceed \$20,000 for services in preparation for retirement

Social Organization/Health Club Initiation Fees and Dues

- One time initiation fee up to 10% of base salary
- Monthly dues at cost, up to \$500 per month

Annual Physical Exam

- At cost, through Company program

The employment agreements also provide for continued or accelerated vesting of equity-based awards in certain circumstances. However, in 2005, our Board of Directors accelerated the vesting of all outstanding stock options, effective December 28, 2005. Unless the Company grants stock options in the future, the vesting provisions, as they pertain to options, currently are not relevant. Additionally, the Company issued shares of restricted stock to certain employees in prior years. Although the Compensation Committee may decide to issue additional stock options or shares of restricted stock in the future, in 2004 it approved a substantial change in the form of equity-based incentive awards that we grant. Beginning in 2005, the Company's long-term incentive plan includes grants of restricted stock units and performance share units. The terms of these awards specifically provide that the vesting provisions contained in the award agreements will supercede any contrary terms contained in the recipient's employment agreement. The restricted stock units and performance share units vest on a prorated basis if the employee is terminated without cause or retires (although awards granted in 2005 will continue to vest for 36 months upon retirement) and are forfeited in the event of the employee's voluntary termination or termination for cause. These awards will be fully vested, and in the case of the performance share

units, as if the employee had remained employed until the end of the performance period, upon death or disability. In the event of a change in control, restricted stock units are fully vested unless assumed by the surviving entity and performance share units are vested and paid on a prorated basis as of the last fiscal quarter prior to the change in control unless assumed by the surviving entity. Additionally, the performance share units provide for the issuance of restricted stock units in the surviving entity equal to that number of performance share units that would have been earned had no change in control occurred and all performance targets had been met for the performance period, which will vest at the end of the original vesting period.

The Company has not quantified the estimated benefits payable under the executives' employment agreements because it does not believe any estimates would be meaningful. As disclosed in the Compensation Committee Report on page 23, the Compensation Committee works with tally sheets containing information regarding each executive's compensation, including estimated payouts in the case of termination. However, the assumptions that must be made to make the estimates include but are not limited to: (i) the actual date of termination; (ii) the Company's stock price on such date; (iii) the Company's results of operations between the date of grant of long-term incentive awards and the date of termination; and (iv) the reason for the termination. Therefore, the Company does not believe that disclosing estimates that are so uncertain, and are themselves based on so many different hypothetical factors, is helpful to an understanding of the terms of the executives' agreements.

COMPENSATION COMMITTEE REPORT

The Compensation Committee of the Board of Directors oversees preparation of the following report regarding 2005 executive compensation, including specific information regarding compensation of our CEO.

Overview

The Compensation Committee consists exclusively of non-employee, independent directors, and is responsible for overseeing all of our executive and senior management compensation. As part of its function, the Compensation Committee has established policies governing the compensation and benefits of all of our executives. The Committee specifically approves the compensation levels of our senior management, sets the bonus plan measures and goals for those individuals, sets the long-term incentive plan (LTIP) measures, and reviews an annual evaluation of our CEO prepared by the Nominating and Governance Committee in determining the CEO's compensation.

In addition to the specific responsibilities regarding senior management, the Compensation Committee approves the design of our equity-based incentive plans and recommends new Company compensation plans. The Compensation Committee regularly works with management and independent consultants to assist with the review, design, implementation and communication of various compensation plans.

For a more detailed overview of the Compensation Committee's role and responsibilities, please see the Compensation Committee charter at <http://www.wm.com>.

Philosophy

As a Committee, it is our objective to compensate executive officers in a manner that promotes recruiting, motivating, and retaining exceptional employees who will help the Company achieve its strategic business objectives and build superior stockholder value. The following principles guided our compensation programs during 2005:

- The base salary levels for our senior executives are targeted at the 50th percentile of the competitive market, taking into account the relative responsibilities of the executives. Salaries are adjusted for each individual from the targeted positioning based on performance, experience, and responsibilities.
- Annual incentives for senior executives are targeted at the 75th percentile for the competitive market, with comparable stretch performance targets. Performance targets are set aggressively so that in order to reach target payouts, exceptional performance is required. This supports a strong pay-for-performance relationship by placing a significant portion of annual compensation at risk.
- Long-term incentives for senior executives are targeted at the 50th percentile of the competitive market, with the opportunity for the value delivered to exceed this market level based on exceptional performance.
- Our total compensation package provides an appropriate mix of fixed and variable compensation to support a strong pay-for-performance relationship.
- Performance-based compensation programs are tied to performance measures that strongly influence shareholder value over time and that can be managed by senior executives.
- Compensation plans are easy to understand and communicate.
- Executives are required to hold a significant portion of the Company's equity in order to promote alignment with stockholders.

Competitive Market

Annually, with the assistance of an outside consultant, the Company determines competitive levels of compensation by reviewing compensation survey data for companies with similar revenue to that of the

[Table of Contents](#)

Company. Additionally, the pay levels of the most senior officers are compared to publicly available information from a group of companies that are similar in terms of size and business model.

Tally Sheets

Beginning in March 2006, the Committee established the process of reviewing a tally sheet for certain officers, including the Chief Executive Officer. The tally sheets include detailed information and dollar amounts for all material components of compensation, including base salary, annual cash bonus, long-term incentive compensation (including the value of all outstanding equity, shares beneficially owned and dividend equivalents earned), perquisites, welfare and retirement benefits, and severance payments under the following scenarios: voluntary termination, termination without cause, termination with cause, death/disability, retirement, and termination during a Change in Control period.

Base Salaries

The Committee annually reviews and determines the base salaries of the Chief Executive Officer and other senior executives. In making each salary decision, the Committee takes into account competitive market data, average salary increases for executives in companies of similar revenue size, overall corporate financial performance, and the executives' individual performance.

Annual Bonuses

Participants are assigned target bonuses as a percentage of base salary, which are established by the Committee based on our desired positioning against the competitive market. The bonus targets are based upon individual position, level of responsibility, and each individual's ability to impact the Company's success. Target bonus opportunities for senior executives range from 50% to 115% of base salary. In 2005, the Company targeted annual incentive compensation at the 75th percentile of the market, with comparable stretch performance targets. Performance targets are set aggressively so that in order to reach target payouts, exceptional performance is required. Actual bonus awards are determined based on the Company's and individual executive's achievement against pre-established financial and operating/personal goals and can range from 0% to 200% of the target award depending upon performance. The Compensation Committee, based upon corporate and business unit objectives determined by the Board, establishes these goals at the beginning of each year. For 2005, 70% of the executives' target bonuses were based on financial measures and 30% were based on operating/personal performance. The financial measures were divided equally between net income margin at the corporate level and cash flow at the corporate or business unit level depending upon the individual's scope of responsibility. The operating/personal performance is based on performance measures that vary by business unit and individual responsibility. For 2005, the financial portion of the annual bonus paid out from 106.6% to 129.5% of target, with payouts varying depending upon the business unit cash flow results.

In 2006, the performance measures for senior executives under the annual incentive plan will remain net income margin, cash flow, and personal performance. Personal performance measures will include goals specific to each executive's area of operation. As CEO, one of Mr. Steiner's required personal performance measures will be a goal linked to the Company's EPS performance.

Long-Term Incentive Program

The Company provides long-term incentive awards to individuals who can impact the Company's long-term performance and value. The Company believes that its executives should have an ongoing stake in the long-term success of the Company. We also believe these key employees should have a considerable portion of their total compensation tied to the Company's stock price performance.

Beginning in 2005, the Company's long-term incentive program no longer includes stock options. The 2005 long-term incentive plan was redesigned to include an equally weighted combination of restricted stock units and

[Table of Contents](#)

performance share units. The restricted stock units emphasize retention while the performance share units emphasize the Company's operating performance. Both are denominated in the Company's common stock, further aligning executive and stockholder interests.

As our new long-term incentive program continues to evolve, we will be making changes that move it towards a more performance-based program. The intent is to further increase the link to performance by increasing the weighting of the performance share units over time. This change will put a greater emphasis on the Company's operating performance while maintaining some retention value.

The value of each restricted stock unit is equal to the value of one share of the Company's common stock. The units vest in equal annual installments over four years from the grant date, provided that the employee remains employed through the vesting date. Recipients have the opportunity to make deferral elections for each tranche. Throughout the vesting period, holders of restricted stock units have the right to receive dividend equivalents, though they do not have the right to vote their restricted stock units.

The value delivered to recipients through performance share units is based on two factors: (1) performance as measured by the three-year average return on invested capital (excluding cash and goodwill); and (2) the market price of the Company's common stock. A target number of performance share units is established at the beginning of each three-year period for each participant. At the end of the three-year period, the number of shares awarded can range from 0% to 200% of the targeted amount depending upon the Company's three-year return on invested capital. Additionally, since the value of each share is tied to the stock price, the value received at the end of the three-year performance period will fluctuate with the value of the Company's common stock. Six months prior to the end of the performance period, recipients have the opportunity to defer their performance share unit award. Throughout the performance period, there are no dividend equivalents paid on the units and holders do not have the right to vote their performance share units.

As previously disclosed in other public filings and the Company's financial statements, in December 2005 the Compensation Committee approved that all outstanding stock options of active employees not currently vested become vested and exercisable effective December 28, 2005. The Committee's decision did not affect any outstanding restricted stock grants, restricted stock units, performance share units, or any other form of equity-based compensation. In making its decision, the Committee considered several factors, including but not limited to the impact on the Company's financial results and the retention of employees and executive officers. The decision to accelerate the vesting of the stock options was made primarily to reduce non-cash compensation expenses that would have been recorded in future periods following the Company's adoption of new accounting rules that generally require the recognition of compensation cost for the fair value of equity-based compensation over the service period.

Other than David P. Steiner, Chief Executive Officer of the Company, no member of the Board of Directors held any stock option affected by the Committee's decision. Executive officers of the Company held options to purchase an aggregate of approximately 1.7 million shares of common stock that were vested in accordance with the acceleration, including 321,250 options held by Mr. Steiner. The Company's executive officers are, however, subject to restrictions on selling shares of Company common stock until they have met certain ownership requirements in accordance with the Company's Stock Ownership Guidelines.

Perquisites

Senior executives are eligible for the following taxable benefits: auto allowance; financial, legal and tax planning; home security; and social organization/health club fees. Senior executives also receive an annual executive physical that is treated as a non-taxable benefit because it is required for the benefit of the Company. Personal use of the Corporate aircraft is required for CEO travel for security purposes and is permitted for other executives' personal use only in special circumstances and with CEO approval.

[Table of Contents](#)

Other Benefits

Senior executives are able to defer a portion of their salary and bonus for payment at a future date under the Company's Deferral Plan. Funds deferred under this plan fluctuate based on selected hypothetical funds that are the same as those in the employee 401(k) plan. Senior executives are also able to participate in the Company's tax-qualified broad-based employee stock purchase plan.

Stock Ownership Guidelines

Executives at the Senior Vice President level and above, as well as certain executives at the Vice President level, are subject to our stock ownership policy. The objectives of the ownership policy are to ensure that Company executives:

- Hold a meaningful amount of Company stock; and
- Retain shares acquired from the Company's equity compensation programs for a period of time.

To achieve these objectives, the Company has implemented stock ownership guidelines that vary by level and are expressed as a fixed number of shares. Ownership levels were established based on one, two, three, four, and five times base salary, depending upon the position. Shares owned outright, deferred stock units in the Deferral Plan and shares held in the 401(k) plan count towards meeting the guideline. The following table outlines the established ownership level by position.

<u>Position</u>	<u>Ownership Target as a Number of Shares</u>	<u>Number of Years to Attain</u>	<u>Percent of Net Profit Shares Required to be Held for 1 Year*</u>
CEO	145,000	5 Years	100%
COO & President	87,350	5 Years	100%
Chief Financial Officer	42,000	5 Years	100%
Senior Vice Presidents-Group	32,600	5 Years	100%
Senior Vice Presidents-Corporate	25,575	5 Years	100%
President-Subsidiary	20,000	5 Years	100%
Designated Vice Presidents	6,950-8,550	7 Years	50%

*Net profit shares are those remaining after payment of exercise price (if any) and withholding taxes with shares of common stock; all covered executives are required to retain 50% to 100% (depending upon position) of net profit shares for one year until ownership guidelines are attained.

Executive Officer Severance Policy

In August 2005, the Compensation Committee approved an Executive Officer Severance Policy. The policy states that the Company shall not enter into a future severance arrangement with an executive officer that provides for benefits in an amount that exceeds 2.99 times the executive officer's then current base salary and target bonus, unless such future severance arrangement receives stockholder approval.

Chief Executive Officer Compensation

David P. Steiner

Because of the size of Mr. Steiner's increases in March and November of 2004 in connection with his promotion to CEO, he did not receive a base salary increase in 2005. His base salary remained at \$850,000. Mr. Steiner's annual target bonus opportunity for 2005 was 115% of base salary. He earned a bonus payout of \$1,062,324 for 2005, which was based on the achievement of performance goals described above, under "Annual Bonuses." As CEO, Mr. Steiner received an annual award of 55,000 restricted stock units and 55,000 performance share units under the Company's annual Long-Term Incentive Plan. In 2005, Mr. Steiner also received an award of 33,333 performance share units in connection with his promotion to Chief Executive Officer in March 2004.

[Table of Contents](#)

Upon review in 2006, the Committee determined that Mr. Steiner's base salary should increase to \$925,000 effective April 2006. In making this decision, the Committee considered a formal review of Mr. Steiner's performance, a competitive market analysis of his pay, and a tally sheet detailing all components of his compensation.

Compensation Deductibility

In designing Waste Management's compensation programs, the Compensation Committee's primary consideration is the Company's achievement of strategic and financial business goals that serve to enhance stockholder value. Section 162(m) of the Internal Revenue Code, as amended, limits a company's ability to deduct compensation paid in excess of \$1 million during any fiscal year to the Chief Executive Officer and the four highest paid officers other than the CEO, unless such compensation meets certain performance-based requirements. The Company's annual incentive plan and performance share plan currently meet the performance-based requirements under Section 162(m). Grants of time-based restricted stock are not considered performance-based and therefore are not deductible. The Committee establishes and oversees executive officer compensation programs that are deductible to the Company. However, the Committee may award compensation from time to time that is not fully tax deductible if the Committee determines that such awards are consistent with its philosophy and in the best interests of the Company and its stockholders.

AUDIT COMMITTEE REPORT

The role of the Audit Committee is, among other things, to oversee the Company's financial reporting process on behalf of the Board of Directors, to recommend to the Board whether the Company's financial statements should be included in the Company's Annual Report on Form 10-K and to select the independent auditor for ratification by stockholders. Company management is responsible for the Company's financial statements as well as for its financial reporting process, accounting principles and internal controls. The Company's independent auditors are responsible for performing an audit of the Company's financial statements and expressing an opinion as to the conformity of such financial statements with generally accepted accounting principles.

The Audit Committee has reviewed and discussed the Company's audited financial statements as of and for the year ended December 31, 2005 with management and the independent registered public accounting firm, and has taken the following steps in making its recommendation that the Company's financial statements be included in its annual report:

- First, the Audit Committee discussed with Ernst & Young, the Company's independent registered public accounting firm for fiscal year 2005, those matters required to be discussed by Statement on Auditing

[Table of Contents](#)

Standards No. 61, including information regarding the scope and results of the audit. These communications and discussions are intended to assist the Audit Committee in overseeing the financial reporting and disclosure process.

- Second, the Audit Committee discussed with Ernst & Young its independence and received from Ernst & Young a letter concerning independence as required under applicable independence standards for auditors of public companies. This discussion and disclosure helped the Audit Committee in evaluating such independence. The Audit Committee also considered whether the provision of other non-audit services to the Company is compatible with the auditor's independence.
- Third, the Audit Committee met periodically with members of management, the internal auditors and Ernst & Young to review and discuss internal controls over financial reporting. Further, the Audit Committee reviewed and discussed management's report on internal control over financial reporting as of December 31, 2005, as well as Ernst & Young's related report.
- Finally, the Audit Committee reviewed and discussed, with the Company's management and Ernst & Young, the Company's audited consolidated balance sheets at December 31, 2005, and consolidated statements of income, cash flows and stockholders' equity for the fiscal year ended December 31, 2005, including the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments and the clarity of the disclosure.

The Committee has also discussed with the Company's internal auditors and independent registered public accounting firm the overall scope and plans of their respective audits. The Committee meets periodically with both the internal auditors and independent registered public accounting firm, with and without management present, to discuss the results of their examinations and their evaluations of the Company's internal audit.

The members of the Audit Committee are not engaged in the accounting or auditing profession and, consequently, are not experts in matters involving auditing or accounting. In the performance of their oversight function, the members of the Audit Committee necessarily relied upon the information, opinions, reports and statements presented to them by Company management and by the independent registered public accounting firm.

Based on the reviews and discussions explained above (and without other independent verification), the Audit Committee recommended to the Board (and the Board approved) that the Company's financial statements be included in its annual report for its fiscal year ended December 31, 2005. The Committee has also approved the selection of Ernst & Young as the Company's independent registered public accounting firm for fiscal year 2006.

**RATIFICATION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM
(Item 2 on the Proxy Card)**

The next proposal on the agenda for the Annual Meeting will be a proposal to ratify the Audit Committee's appointment of Ernst & Young LLP as our independent registered public accounting firm for fiscal year 2006.

Representatives of Ernst & Young LLP will be at the Annual Meeting. They will be able to make a statement if they want, and will be available to answer any appropriate questions stockholders may have.

Independent Registered Public Accounting Firm Fee Information

Fees for professional services provided by our independent registered public accounting firm in each of the last two fiscal years, in each of the following categories, were as follows:

	<u>2005</u>	<u>2004</u>
	(in millions)	
Audit Fees	\$ 8.9	\$ 13.0
Audit-Related Fees	1.6	2.3
Tax Fees	0.1	0.3
All Other Fees	0.0	0.0
Total	\$ 10.6	\$ 15.6

Audit includes fees for the annual audit, reviews of the Company's Quarterly Reports on Form 10-Q, accounting consultations, and separate subsidiary audits required by statute or regulation, both domestically and internationally. Audit-related fees principally include separate subsidiary audits not required by statute or regulation and employee benefit plan audits. Tax fees were for tax assistance in certain foreign jurisdictions.

The Audit Committee has adopted procedures for the approval of Ernst & Young's services and related fees. At the beginning of each year, all audit and audit-related services and fees for the upcoming audit are provided to the Audit Committee for approval. The services are grouped into significant categories and provided to the Audit Committee in the format shown above. All projects that have the potential to exceed \$100,000 are separately identified and reported to the Committee for approval. The Audit Committee Chairman has the authority to approve additional services, not previously approved, between Committee meetings. The Audit Committee is updated on the status of all services and related fees at every regular meeting. In 2005 and 2004, the Audit Committee pre-approved all audit, audit-related and tax services performed by Ernst & Young.

As set forth in the Audit Committee Report on page 28, the Audit Committee has considered whether the provision of these non-audit services is compatible with maintaining auditor independence and has determined that they are.

In connection with the audit of the 2005 and prior year financial statements, we entered into engagement letters with Ernst & Young, which set forth the terms by which Ernst & Young would perform audit services for the Company. Those agreements are subject to alternative dispute resolution procedures and a mutual exclusion of punitive damages.

THE BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE FOR THE RATIFICATION OF ERNST & YOUNG LLP AS THE COMPANY'S INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR FISCAL YEAR 2006.

**PROPOSAL TO AMEND THE COMPANY'S EMPLOYEE STOCK PURCHASE PLAN
(Item 3 on the Proxy Card)**

Description of the Amendment

The Board of Directors believes it is in our best interests to encourage stock ownership by our employees. Accordingly, the Board of Directors established the ESPP, which was approved by stockholders at our 1997 Annual Meeting. An aggregate of 1,000,000 shares of common stock was originally authorized for issuance under the ESPP. Stockholders approved increases in the number of shares authorized for issuance to 2,250,000 at the 2000 Annual Meeting and to 4,250,000 at the 2003 Annual Meeting. As of March 10, 2006, approximately 35,000 employees were eligible to participate and only 164,979 shares remained available for issuance. Therefore, the Board of Directors will present a proposal to increase the number of shares authorized for issuance by an additional 2,500,000 shares of common stock by amending the ESPP.

Description of the ESPP

The ESPP permits eligible employees to purchase shares of common stock at a discount. On the last day of each six-month period between January 1 and June 30 and July 1 and December 31 (each, an "Offering Period"), each employee who is enrolled in the ESPP will automatically purchase a number of shares of common stock determined by dividing such employee's payroll deductions accumulated in the ESPP during such Offering Period by the Offering Price. The Offering Price of each of the shares purchased in a given Offering Period is the lower of 85% of the fair market value of a share of common stock on the first or last day of the Offering Period. If an employee withdraws from participation during an Offering Period, the monies contributed to the Plan are refunded immediately without interest. On March 10, 2006, the fair market value of our common stock was \$33.87 per share.

The ESPP is administered by the Administrative Committee of the Waste Management Employee Benefit Plans, a committee appointed by the Board of Directors. The Administrative Committee has the authority to interpret all provisions of the ESPP. Generally, employees who have been employed for at least 30 days prior to the first day of an Offering Period are eligible to participate in the ESPP.

Eligible employees may elect to participate by enrolling in the plan and authorizing after-tax payroll deductions from their pay. The payroll deduction may not exceed ten percent of the employee's gross pay. In addition, an employee cannot contribute more than any amount that would (a) result in the employee owning common stock and/or options to purchase common stock making up five percent or more of our outstanding capital stock, or (b) permit such employee to purchase in excess of \$25,000 in fair market value of common stock in any given year.

All payroll deductions for the ESPP are placed in a general corporate account. No interest accrues on the payroll deductions, and an employee participating in the ESPP may not make any additional payments into the account. Employees may purchase common stock under the ESPP only through payroll deductions.

The Board of Directors may amend the ESPP at any time. However, the ESPP may not be amended in any way that will cause rights issued thereunder to fail to meet the requirements for employee stock purchase plans as defined in Section 423 of the Internal Revenue Code of 1986, as amended (the "Code"), including stockholder approval if required.

The ESPP will terminate on (i) the date that participating employees become entitled to purchase an aggregate number of shares greater than the number of shares remaining available for purchase, or (ii) the date on which the ESPP is terminated by the Board of Directors.

Participation in the ESPP is discretionary, and participants can contribute up to ten percent of their gross pay, subject to the limitations described above. Additionally, the value of the common stock purchased will vary

[Table of Contents](#)

based on the fair market value of our common stock on the first and last days of the Offering Period. Accordingly, the number of shares that may be purchased in the future by the five most highly compensated executive officers listed in this Proxy Statement, the executive officers as a group and all employees (other than the executive officers) as a group is not currently determinable. Non-employee directors of the Company are not eligible to participate in the ESPP.

Federal Income Tax Consequences

The ESPP is intended to be an “employee stock purchase plan” as defined in Section 423 of the Code, which provides that an employee does not have to pay any federal income tax when he elects to participate in the ESPP or when he purchases shares of common stock in accordance with the terms of the ESPP. However, as a general rule, the employee is required to pay federal income tax on the difference, if any, between the price at which he sells the shares received under the ESPP and the price paid for them.

The foregoing does not constitute a complete statement of the federal income tax effects under the ESPP, and each participant in the ESPP should consult with his or her own tax advisor to determine the particular tax effects of participation in the ESPP and transactions in shares received thereunder.

The foregoing description of the ESPP is qualified in its entirety by, and should be read in conjunction with, the text of the ESPP, a copy of which, as proposed to be amended, is attached hereto as Appendix C.

The affirmative vote of the holders of a majority of the shares of Waste Management common stock present or represented by proxy and entitled to vote at the Annual Meeting of Stockholders is required for approval of the amendment to the ESPP.

THE BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE FOR THE APPROVAL OF THE AMENDMENT TO THE EMPLOYEE STOCK PURCHASE PLAN.

EQUITY COMPENSATION PLANS INFORMATION

<u>Plan Category (a)</u>	<u>Number of securities to be issued upon vesting or exercise of outstanding options, warrants and rights</u>	<u>Weighted-average exercise price of outstanding options, warrants and rights</u>	<u>Number of securities remaining available for future issuance under equity compensation plans</u>
Equity compensation plans approved by security holders (b)	30,342,719(c)	\$ 27.20(d)	25,014,551(e)
Equity compensation plans not approved by security holders (f)	1,905,872(g)	\$ 28.57(h)	539,053(i)
Total	32,248,591	\$ 27.28	25,553,604

a) Excludes options and warrants to purchase 3,662,687 shares of our common stock, at a weighted-average exercise price of \$35.78. These options and warrants were granted under compensation plans and individual arrangements by Sanifill, Inc., United Waste Services, Inc., Wheelabrator Technologies Inc., Waste Management Holdings, Inc. and Eastern Environmental Services, Inc., companies that we acquired between 1996 and 1998. Upon consummation of our acquisition of these companies, all of the options and warrants to purchase their common stock that were then outstanding were converted into the right to purchase shares of our common stock. No additional options, warrants or other rights can be granted under any of these assumed plans.

b) Plans approved by stockholders include our ESPP, 1993 Stock Incentive Plan, 2000 Stock Incentive Plan, 1996 Non-Employee Director’s Plan and 2004 Stock Incentive Plan. The ESPP provides for two purchase periods each year during which eligible employees purchase shares of our common stock through payroll deductions made throughout the purchase period. At the end of the purchase period, shares are purchased at a price equal to 85% of the lesser of the closing price of our common stock on the first or last business day of the applicable purchase period. The purchase periods are January 1 to June 30 and July 1 to December 31 of each year. It is impossible for the Company to calculate

Table of Contents

the number of shares that will be issued or the price at which they will be issued, and therefore ESPP shares are excluded from the number of shares to be issued upon exercise and the weighted average exercise price columns in this table.

- c) Excludes purchase rights accruing under the ESPP. Includes (i) 8,539,263 shares issuable upon exercise of options outstanding under our 1993 Stock Incentive Plan, 867,500 shares issuable upon exercise of options outstanding under our 1996 Non-Employee Director's Plan, 19,252,151 shares issuable upon exercise of options outstanding under our 2000 Stock Incentive Plan and 112,407 shares issuable upon exercise of options outstanding under our 2004 Stock Incentive Plan; (ii) 93,450 unvested shares of restricted stock issued under the 2000 Stock Incentive Plan and 11,000 unvested shares of restricted stock issued under the 2004 Stock Incentive Plan; (iii) 767,251 shares issuable upon vesting of restricted stock units issued under the 2004 Stock Incentive Plan; and (iv) 699,697 shares issuable upon vesting of performance share units issued under the 2004 Stock Incentive Plan. The number of shares included as issuable upon vesting of the performance share units is the target number of shares issuable under those awards; dependent on the achievement of Company performance goals under the awards, the actual number of shares issued may range from 0 to 200% of the target.
- d) The weighted-average exercise price of awards issued under plans approved by stockholders excludes (i) purchase rights under the ESPP and (ii) unvested shares of restricted stock and shares issuable upon vesting of performance share units and restricted stock units issued under our stock incentive plans. Other than the purchase rights under the ESPP as described in footnote b), none of these awards require any payment by the grantee to the Company; shares of restricted stock and restricted stock units are time-based vesting awards and performance share units are Company performance-based vesting awards.
- e) Includes 164,979 shares that may be issued under the ESPP and 24,849,572 that may be issued under the 2004 Stock Incentive Plan. In calculating the number of shares available for issuance under the 2004 Stock Incentive Plan, two times the number of shares issuable upon vesting of the performance share units that are outstanding are counted as potentially issuable and therefore not available for grant, as the terms of those awards allow for the issuance of up to 200% of the target, depending on Company performance, as described in footnote c) (except for the promotional share units granted to Messrs. Steiner and O'Donnell in January 2005, which are counted at 1.5 times the target, as the terms of those awards provide for a maximum payout of up to 150% of target). No additional shares may be issued under the 1993 Stock Incentive Plan, as that plan expired in May 2003. Additionally, upon approval by stockholders of the 2004 Stock Incentive Plan, all shares available under the 2000 Stock Incentive Plan and the 1996 Non-Employee Director's Plan became available for issuance under the 2004 Stock Incentive Plan.
- f) Includes our 2000 Broad-Based Employee Plan and 2003 Directors' Deferred Compensation Plan. Also includes individual arrangements under which warrants to purchase our common stock were issued as compensation for goods and services between 1994 and 1997 and expire through 2007. No awards under the Broad-Based Employee Plan are held by, or may be issued to, any of our directors or executive officers. The Broad-Based Employee Plan allows for the granting of stock options, appreciation rights and stock bonuses to employees on such terms and conditions as the Compensation Committee may decide; provided, that the exercise price of options may not be less than 100% of the fair market value of the stock on the date of grant, and all options expire ten years from the date of grant. The 2003 Directors' Deferred Compensation Plan allows directors to defer a portion of their compensation by receiving shares of common stock in lieu of cash and requires them to receive shares of common stock in lieu of cash for a portion of their compensation. The number of shares issuable to the directors is valued as of the date the directors would otherwise receive cash compensation, based on the fair market value of the common stock as of such day, and is issued following the termination of the directors' service on the board.
- g) Includes (i) 746,349 shares issuable upon exercise of outstanding options issued under the 2000 Broad-Based Plan; (ii) 1,093,759 shares issuable upon exercise of warrants; and (iii) 65,764 shares issuable upon vesting of outstanding rights under the 2003 Directors' Deferred Compensation Plan.
- h) The weighted-average exercise price of awards issued under plans not approved by stockholders excludes the 65,764 stock units issued to directors under the 2003 Directors' Deferred Compensation Plan, as those awards require no consideration to be paid by the directors.
- i) Includes 111,114 shares remaining available for issuance under the 2000 Broad-Based Employee Plan and 427,939 shares remaining available for issuance under the 2003 Directors' Deferred Compensation Plan.

**STOCKHOLDER PROPOSAL RELATING TO THE ELECTION OF DIRECTORS
BY MAJORITY VOTE
(Item 4 on the Proxy Card)**

The following proposal was submitted by the International Brotherhood of Teamsters General Fund, 25 Louisiana Avenue, N.W., Washington, D.C. 20001, which owns 143 shares of Waste Management common stock. The proposal has been included verbatim as it was received by us.

Stockholder Proposal

RESOLVED: That the shareholders of Waste Management (“Waste Management” or “the Company”) hereby request that the Board of Directors initiate the appropriate process to amend the Company’s governance document (certificate of incorporation or bylaws) to provide that director nominees shall be elected by the affirmative vote of the majority of votes cast at an annual meeting of shareholders.

Stockholder Supporting Statement

Our Company is incorporated in Delaware. Delaware law provides that a company’s certificate of incorporation or bylaws may specify the number of votes that shall be necessary for the transaction of any business, including the election of directors. (DGCL, Title 8, Chapter 1, Subchapter VII, Section 216). The law provides that if the level of voting support necessary for a specific action is not specified in a corporation’s certificate or bylaws, directors “shall be elected by a plurality of the votes of the shares present in person or represented by proxy at the meeting and entitled to vote on the election of directors.”

Our Company uses the plurality vote standard to elect directors. This proposal requests that the Board initiate a change in the Company’s director election vote standard to provide that nominees for the Board of Directors must receive a majority of the votes cast to be elected or re-elected to the Board.

We believe a majority vote standard in director elections would give shareholders a meaningful role in the director election process. Under the current standard, a nominee in a director election can be elected with as little as a single affirmative vote, even if a substantial majority of the votes cast is “withheld” from that nominee. The majority vote standard would require that a director receive a majority of the vote cast in order to be elected to the Board.

Similar proposals to this one received high levels of support last year, winning majority support at Advanced Micro Devices, Marathon Oil, Marsh and McLennan, Office Depot, Raytheon and others. Leading proxy advisory firms also recommended voting in favor of the proposal.

Some companies have adopted board governance policies requiring director nominees that fail to receive majority support from shareholders to tender their resignations to the Board; however, this policy is valid only if the Board accepts the resignations. We believe that these policies are inadequate for they are based on the continued use of the plurality standard and would allow director nominees to be elected despite only minimal shareholder support. We contend that changing the legal standard to a majority vote is a superior solution that merits shareholder support.

Our proposal is not intended to limit the judgment of the Board in crafting the requested governance change. For instance, the Board should address the status of incumbent director nominees who fail to receive a majority vote under a majority vote standard and whether a plurality vote standard may be appropriate in director elections when the number of director nominees exceeds the available board seats.

We urge your support **FOR** this important director election reform.

Waste Management Response to Stockholder Proposal Regarding Election of Directors by Majority Vote

Your Board does not believe that electing directors under a different standard would result in a more effective Board, nor does the proponent assert that our Board has not acted in the best interest of its stockholders. We believe that implementation of a majority voting system would unnecessarily complicate the election of directors and likely have unintended and unforeseen consequences. Plurality voting is the base standard under most state corporate laws, including Delaware which applies to our Company. Plurality voting is understood by, and has worked well for, our stockholders and is used by corporations that have been identified as leaders in corporate governance reforms.

Current Delaware law states that each incumbent director serves until a successor is elected and qualified for his or her position. Under the proponent's proposal, any incumbent director who did not receive a majority of votes would nonetheless continue to serve as a director until his or her successor is elected by a subsequent vote of stockholders. Additionally, if any non-incumbent nominee did not receive a majority of the votes cast, the resulting vacancy could be filled by a successor designated by the other directors. Therefore, your Board believes that a majority voting system could result in a less democratic alternative than the current plurality voting system, as stockholders would be taken out of the process altogether in certain circumstances. Finally, a majority voting standard would apply equally to stockholder nominees, thereby making it more difficult for stockholder nominees to get elected.

Additionally, implementation of the proposal could unnecessarily increase our Company's costs in connection with its annual meetings. We may be required to take additional actions such as conducting telephone solicitation campaigns, second mailings or other vote-getting strategies to obtain the required vote to elect directors, all of which would result in increased spending for routine elections. Your Board believes this would be a poor use of Company and stockholder resources.

Under the Company's current plurality voting system, a "withhold vote" campaign allows stockholders to express their views in a way that does not affect our fundamental governance structure. The proponent's supporting statement does not address the usefulness and the power of stockholders' ability to withhold votes under the plurality system.

The best system of voting for directors is a topic that continues to be debated. While the Company does not oppose a meaningful modification to the current plurality standard, your Board believes it would not be in the best interest of the Company and our stockholders to prematurely make changes to the Company's voting system before we know more about when and whether changes may be made to Delaware law.

Your Board believes that Waste Management stockholders currently and rightfully have a meaningful role in the director election process. Waste Management has in place robust corporate governance processes. With the exception of our Chief Executive Officer, our Board is comprised solely of independent directors, including a Non-Executive Chairman, each of whom is elected by stockholders annually. The Company's corporate governance processes have been designed to identify and propose director nominees who will serve the best interests of the Company and its stockholders.

The Company's stockholders have a history of electing strong and independent Boards, not only by a plurality, but in fact by a substantial majority of votes cast. In Waste Management's history, no Board-nominated director has ever had a majority of votes withheld in his or her election. In fact, each Board-nominated director has received a substantial majority of "for" votes cast in his or her election.

Making a change to the Company's current system of plurality voting is not necessary to give our stockholders a more meaningful role in the election of directors process. Additionally, your Board believes that instituting a vote requirement that potentially decreases democracy and increases costs and uncertainty is not in furtherance of good corporate governance.

FOR THE REASONS STATED ABOVE, THE BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE AGAINST ADOPTION OF THIS PROPOSAL.

We do not intend to bring any other matters before the Annual Meeting, nor do we have any present knowledge that any other matters will be presented by others for action at the meeting. WASTE MANAGEMENT, INC.
CORPORATE GOVERNANCE GUIDELINES

Board Mission and Responsibilities

Mission Statement

The Company's primary objective is to maximize stockholder value, while adhering to the laws of the jurisdictions within which it operates and observing the highest ethical standards.

Corporate Authority & Responsibility

All corporate authority resides in the Board of Directors as the representative of the stockholders. The Board delegates authority to management to pursue the Company's mission. Management, not the Board, is responsible for managing the Company. The Board retains responsibility to recommend candidates to the stockholders for elections to the Board of Directors. The Board retains responsibility for selection and evaluation of the Chief Executive Officer (the "CEO"), oversight of succession plans, determination of senior management compensation, approval of the annual budget, and review of systems, procedures and controls. The Board also advises management with respect to strategic plans.

Board Structure

Board Composition

Independent Directors shall constitute a substantial majority of the Board.

Number of Directors

The Board shall have an objective to maintain its size at nine directors.

Committees

The standing Board committees shall be the Audit Committee, the Compensation Committee, and the Nominating and Governance Committee. All standing committees shall be made up of Independent Directors. Committees shall receive authority exclusively through delegation from the Board. The Board must ratify all committee actions unless taken pursuant to an express delegation of authority. A Director may attend any Board committee meeting. The Board shall have responsibility for determining any qualifications of committee members, including whether any member of the Audit Committee is an "Audit Committee Financial Expert". The Board shall appoint a Chairperson of each Committee who will serve until his or her successor is appointed. The Board intends to rotate the Committee Chairpersons periodically.

Independent Director

Each director must be affirmatively determined by the Board to be an "independent director" as required by the New York Stock Exchange ("NYSE"). In order to meet or exceed the NYSE requirements, the Board has established the following categorical standards and if a director meets such standards, he or she will be presumed to be independent:

1. During the past three years, the Company has not employed the director, and has not employed (except in a non-officer capacity) any of his or her immediate family members.

Table of Contents

2. During the past three years, neither the director, nor any of his or her immediate family members, has received any direct compensation from the Company other than director fees.
3. Neither the director, nor any of his or her immediate family members, is currently employed by (or affiliated with) the Company's auditors, and during the past three years, neither the director nor any of his or her immediate family members have been employed by (or affiliated with) the Company's auditors and personally worked on the Company's audit.
4. During the past three years, neither the director, nor any of his or her immediate family members, has been part of an "interlocking directorate" in which an executive officer of the Company serves on the compensation (or equivalent) committee of another company that employs the director.
5. The director does not (directly or indirectly as a partner, shareholder or officer of another company) provide consulting, legal or financial advisory services to the Company or the Company's present or former auditors.
6. During the past three years, neither the director, nor any of his or her immediate family members, has been employed by (or affiliated with) a significant supplier or customer of the Company. For the purposes of this categorical standard, a supplier or customer shall be considered significant if its sales to, or purchases from the Company represent more than 1% of the Company's or the supplier's/customer's consolidated gross revenues.
7. The following relationships will not be considered to be material relationships that would impair a director's independence: (i) if a director of the Company is an executive officer of another company which is indebted to the Company, or to which the Company is indebted, and the total amount of either company's indebtedness to the other is less than 1% of the total consolidated assets of the company he serves as an executive officer and (ii) if a director of the Company serves as an officer, director or trustee of a not for profit organization, and the Company's or the Waste Management Charitable Foundation's discretionary charitable contributions to the organization, in the aggregate, are less than 2% (or \$1,000,000 whichever is greater) of that organization's consolidated gross revenues.

Annually, the Board will review all commercial and charitable relationships of directors. Whether directors meet these categorical independence tests will be reviewed and will be made public annually prior to their standing for re-election to the Board.

The Audit Committee shall also have the ultimate authority to approve all audit engagement fees and terms, as well as all significant non-audit engagements of the Company's independent auditor. The Audit Committee also has the responsibility for evaluating and determining that the audit engagement team has the competence necessary to conduct the audit engagement in accordance with Generally Accepted Auditing Standards ("GAAS").

6. *Election to Participate in the Plan.*

(a) Each Eligible Employee may elect to participate in the Plan by completing an enrollment agreement in the form provided by the Company and filing such enrollment agreement with the Company prior to the applicable Enrollment Date, unless the Committee establishes another deadline for filing the enrollment agreement with respect to a given Offering Period.

(b) Unless a Participant withdraws from participation in the Plan as provided in Section 10 or authorizes a different payroll deduction by filing a new enrollment agreement prior to the Enrollment Date of a succeeding Offering Period, a Participant who is participating in an Offering Period as of the Exercise Date of such Offering Period shall be deemed to have (i) elected to participate in the immediately succeeding Offering Period and (ii) authorized the same payroll deduction percentage for such immediately succeeding Offering Period as was in effect for such Participant immediately prior to such succeeding Offering Period.

7. *Payroll Deductions.*

(a) All Participant contributions to the Plan shall be made only by payroll deductions. Each time a Participant files the enrollment agreement with respect to an Offering Period, the Participant shall authorize payroll deductions to be made during the Offering Period in an amount from 1% to 10% (in whole percentages) of the Eligible Compensation that the Participant receives on each payroll date during such Offering Period. (b) Notwithstanding any provision of the Plan to the contrary, no Eligible Employee shall be granted an option under the Plan (i) if, immediately after the grant, such Eligible Employee (or any other person whose stock would be attributed to such Employee pursuant to Section 424(d) of the Code) would own stock and/or hold outstanding options to purchase stock possessing 5% or more of the total combined voting power or value of all classes of stock of the Company or of any Subsidiary of the Company, or (ii) which permits such Eligible Employee's rights to purchase stock under all employee stock purchase plans of the Company and its Subsidiaries to accrue at a rate which exceeds \$25,000 of fair market value of such stock (determined at the time such option is granted) for each calendar year in which such option is outstanding at any time.

9. *Automatic Purchase.*

10. *Withdrawal; Termination of Employment.*

(a) A Participant may withdraw all of the payroll deductions credited to the Participant's account for a given Offering Period by providing written notice to the Company no later than 45 days prior to the last day of such Offering Period. All of the Participant's payroll deductions credited to the Participant's account will be paid to him promptly after receipt of the Participant's notice of withdrawal, the Participant's participation in the Plan will be automatically terminated, and no further payroll deductions for the purchase of shares hereunder will be made. Payroll deductions will not resume on behalf of a Participant who has withdrawn from the Plan, unless written notice is delivered to the Company within the enrollment period preceding the commencement of a new Offering Period directing the Company to resume payroll deductions.

(b) Upon termination of the Participant's Continuous Employment prior to the Exercise Date of the Offering Period for any reason, including retirement or death, the payroll deductions credited to the Participant's account will be returned to the Participant or, in the case of death, to the Participant's estate, and the Participant's options to purchase shares under the Plan will be automatically terminated.

(c) In the event a Participant ceases to be an Eligible Employee during an Offering Period, the Participant will be deemed to have elected to withdraw all payroll deductions credited to his account from the Plan. 11. *Transferability.*

Options to purchase Common Stock granted under the Plan are not transferable, in any manner, by a Participant and are exercisable only by the Participant.

13. *Adjustments Upon Changes in Capitalization.*

(a) If the outstanding shares of Common Stock are increased or decreased, or are changed into or are exchanged for a different number or kind of shares, as a result of one or more reorganizations, restructurings, recapitalizations, reclassifications, stock splits, reverse stock splits, stock dividends or the like, upon authorization of the Committee, appropriate adjustments shall be made in the number and/or kind of shares, and the per share purchase price thereof, which may be issued in the aggregate and to any Participant upon exercise of options granted under the Plan.

(b) In the event of the proposed dissolution or liquidation of the Company, each Offering Period will terminate immediately prior to the consummation of such proposed action, unless otherwise provided by the Committee. In the event of a proposed sale of all or substantially all of the assets of the Company, or the merger of the Company with or into another corporation, each option under the Plan shall be assumed or an equivalent option shall be substituted by such successor corporation or a parent or subsidiary of such successor corporation, unless the Committee determines, in the exercise of its sole discretion and in lieu of such assumption or substitution, that the Participant shall have the right to exercise the option as to all of the optioned stock, including shares as to which the option would not otherwise be exercisable. If the Committee makes an option fully exercisable in lieu of assumption or substitution in the event of a merger or sale of assets, the Committee shall notify the Participant that the option shall be fully exercisable for a stated period, which shall not be less than 10 days from the date of such notice, and the option will terminate upon the expiration of such period.

(c) In all cases, the Committee shall have full discretion to exercise any of the powers and authority provided under this Section 13, and the Committee's actions hereunder shall be final and binding on all Participants. No fractional shares of stock shall be issued under the Plan pursuant to any adjustment authorized under the provisions of this Section 13.

14. *Amendment of the Plan.*

The Board may at any time, or from time to time, amend the Plan in any respect; provided, however, that the Plan may not be amended in any way that will cause rights issued under the Plan to fail to meet the requirements for employee stock purchase plans as defined in Section 423 of the Code or any successor thereto, including, without limitation, shareholder approval, if required.

15. *Termination of the Plan.*

The Plan and all rights of Eligible Employees hereunder shall terminate:

(a) on the Exercise Date that Participants become entitled to purchase a number of shares greater than the number of reserved shares remaining available for purchase under the Plan; or

(b) at any time, at the discretion of the Board.

In the event that the Plan terminates under circumstances described in Section 15(a) above, reserved shares remaining as of the termination date shall be sold to Participants on a pro rata basis.

16. *Notices.*

All notices or other communications by a Participant to the Company under or in connection with the Plan shall be deemed to have been duly given when received in the form specified by the Company at the location, or by the person, designated by the Company for the receipt thereof.

17. *Shareholder Approval.*

The Plan shall be subject to approval by the shareholders of the Company within twelve months after the date the Plan is adopted by the Board of Directors. If such shareholder approval is not obtained prior to the first

Exercise Date, the Plan shall be null and void and all Participants shall be deemed to have withdrawn all payroll deductions credited to their accounts on such Exercise Date pursuant to Section 10.

18. *Conditions Upon Issuance of Shares.*

(a) The Plan, the grant and exercise of options to purchase shares of Common Stock under the Plan, and the Company's obligation to sell and deliver shares upon the exercise of options to purchase shares shall be subject to all applicable federal, state and foreign laws, rules and regulations, and to such approvals by any regulatory or governmental agency as may, in the opinion of counsel for the Company, be required. Notwithstanding anything in the Plan to the contrary, share certificates shall not be delivered to Participants until the later of (i) the date on which the applicable holding period to avoid a disqualifying disposition (within the meaning of Code Section 421) expires, or (ii) the date that a Participant specifically requests a certificate for shares purchased pursuant to the Plan.

(b) The Company may make such provisions, as it deems appropriate, for withholding by the Company pursuant to all applicable tax laws of such amounts as the Company determines it is required to withhold in connection with the purchase or sale by a Participant of any Common Stock acquired pursuant to the Plan. The Company may require a Participant to satisfy any relevant tax requirements before authorizing any issuance of Common Stock to such Participant.
